

Field trips give TACC members an opportunity to shoot in various venues with other club members, providing an opportunity for learning and camaraderie. It's almost impossible to go on a field trip without learning something new!

Our Field Trip Coordinator will come up with some field trips, but members are also encouraged to suggest a field trip location and time, and share a favorite or new location or type of photography with fellow members.

Field trips are scheduled as they come up, and members are notified through the group email. Sometimes dependent on the weather, bloom times, or other timeliness issues, there may not always be a lot of prior notice.

All Camera Club members and their guests are welcome to attend any TACC field trip.
